Dear Respondents,

I'm excited to release the Request for Proposals for Project 23-01 to design and construct a hydrogen refueling station, and provide O&M services and fuel supply services.

Please find the RFP materials at the following Procurement Website

<https://hta.org/procurement-opportunities/project-23-01/>

Note the final schedule of events changed slightly from my last email.

Also note there is a mandatory pre-proposal conference and site walk, and all Proposers must notify the Procurement Coordinator one week in advance with the number of attendees.

Respectfully,  
Jerome
